

ANGELS & DEMONS TCG

Official Rules — Version 1.0

Core Directive: ALL RULES APPLY UNLESS OTHERWISE STATED ON A CARD!

TABLE OF CONTENTS

- 0. Card Rarity
- 1. Deck & Cores
- 2. Zones
- 3. Start of Duel
- 4. Turn Structure
- 5. Summoning
- 6. Battle
- 7. Card Types
- 8. Timing
- 9. Hand & Field
- 10. Terminology
- 11. Winning/Losing

0. CARD RARITY

- **Common**
- **Rare**
- **Legendary**
- **Ultra Legend**

2. ZONES

- **Field Limits:** Max 5 Monsters + max 5 Magic/Trap cards + max 5 Relic cards. (Arena is separate).
- **Graveyard & Deck:** 1 Shared Graveyard, individual Decks, and Hand.
- **Banished:** Cards removed from the game completely, unusable unless specified by a card (e.g., *Summon Paper*, *Flying Tiger Horse*).

1. THE DECK & SOUL CORES

- **Main Deck:** Exactly 50 cards (Monster, Trap, Magic, Relic, Arena).
- **Soul Cores:** Player life points tokens. Start with 10. No upper limit.
- **Copies Limit:** Max 5 copies of the same card combined (Main + Side Deck).
- **Side Deck:** Max 15 cards. 1-for-1 swaps between best-of-3 duels. Main deck must return to exactly 50 cards.

3. START OF THE DUEL

- Decide randomly who starts (coin or die). Both players shuffle each other's deck, then draw 5 cards.
- **First Turn Rule (Both Players):** No attacks, no Special Summons, and all summoned Monsters enter in *Defense mode*.

4. TURN STRUCTURE

- **Draw Phase:** Draw 1 card. Empty deck results in a deck-out loss.
- **Main Phase:** Play max 1 Monster per turn (unless stated). Max 3 Magic cards played/set/activated per turn. Play Relics (max 5 on field). Set Magic/Trap cards face-down (setting and activating are separate steps).
- **Battle Phase:** Attack mode Monsters each attack 1×. Both players can activate Magics/Traps.
- **End Phase:** End turn and resolve End Phase effects.

5. SUMMONING MONSTERS

NORMAL SUMMON

- 1 per turn. Place face-up in Attack mode OR face-down in Defense mode (subject to first-turn rules).

OFFER SUMMON

- Sacrifice field Monsters as a cost. Sent to Graveyard (not defeated, no Soul Core loss, no triggers, doesn't count as playing an extra Monster). Face-down cards can be sacrificed (turned face-up first).

SACRIFICE AS A CARD COST

- Applies to Magic, Relic, or Trap costs (e.g., *Demonic Cake*, *Dragon Contract*, *Monster Sacrifice*, *False Lucky Dice*). Sacrificed monsters go to the Graveyard without triggering defeat mechanics or Soul Core loss.

SPECIAL SUMMON

- Enters via card effect or own conditions (e.g., *Summon Paper*, *Shadow Ambush*, *Second Life*, *Malakor*). Does not count toward the 1-per-turn normal limit; forbidden on turn 1. Player chooses position (except turn 1).

GOD CARDS & MALAKOR

- God cards require specific card conditions. *Malakor the Forgotten One* is Special Summoned from the hand by sending all 6 Malakor pieces from hand/field to the Graveyard.

CONTROL & BOUNCE

- **Mind Control:** Controller chooses attacks. If defeated in Attack mode, original owner loses the Soul Core. Relics stay equipped; monster returns afterwards.
- **Bounce:** Returning to hand is not a defeat, sends no relics to graveyard (unless specified), clears damage/stats, avoids triggers.

6. BATTLE

- Attacker chooses target. Attack vs. Attack subtracts attack power from target HP; Attack vs. Defense targets DEF. Excess damage is discarded without player spillover.
- Face-down targets are flipped face-up before damage calculation (position becomes Defense).
- Defense mode cannot attack. No summoning sickness (monsters can attack immediately upon entry).
- **Protected Monsters:** Cannot be attacked or targeted by card effects (e.g., *Shield of Gods*) unless specified.
- **Position Changes:** 1× per turn, starting from the second turn on the field.

DEFEAT & SOUL CORE LOSS

- A Monster is defeated when its HP or DEF reaches 0 (via damage or destruction effects). Destroyed = defeated.
- **You lose 1 Soul Core when:**
 1. Any Monster (including God-race) is defeated while in Attack mode.
 2. A special card destroys a Soul Core.
 3. You have no Monsters and your opponent attacks directly (1 per attacking monster).

7. CARD TYPES

- **Magic:** First set face-down, then activated by turning face-up. Resolves and goes to Graveyard unless persistent (e.g., *Angel/Demon Ascension*). On your turn, set and activate immediately. On opponent's turn, only activate pre-set cards. Allowed during Main and Battle Phases. Counts toward the 5-card limit.
- **Trap:** Set face-down; can be activated during either player's turn, including the turn it is set.
- **Relic:** Always face-up on the field. Max 3 per Monster. Goes to Graveyard if the monster leaves the field.
- **Arena:** Separate zone. Only 1 active at a time; new replaces old. Doesn't count toward the 5 non-Monster limit.

8. TIMING & RESPONSES

- **After Every Action:** Opponent may respond with a Trap/Magic before resolution (Summon, Play Magic/Relic, Set/Activate Trap, Position change, Attack declaration).
- **Tick Effects:** Trigger at the start of the controller's Battle Phase (e.g., Burn, Poison, Ascension).
- **Attack Steps:** Attacker → Target → Opponent Response → Damage Calculation → Resolution. Turn player resolves simultaneous responses first. Monster effects apply immediately when face-up on field.

9. HAND, FIELD, & VISIBILITY

- No maximum hand size normally. Hand limits (e.g., *Curse of Hand*) require discarding down to the maximum at the start of your turn.
- Face-down cards keep strategies hidden. Face-down Magics and Traps are indistinguishable. Opponents cannot view hand/deck unless specified.

10. TERMINOLOGY & 11. WINNING / SIDE DECK

- **Terminology:** Turn = Round. Battle = Duel. Summoned = all entry methods (Normal, Offer, Special). Graveyard items are locked unless retrieved by card effects.
- **Loss Conditions:** 0 Soul Cores OR Deck-out during Draw Phase.
- **Side Deck:** Max 15 cards. 1-for-1 swaps between matches keeping Main Deck at 50 cards.
